PROFESSIONAL SUMMARY

Results-driven MEAL professional with over 17 years of experience in designing and leading Monitoring, Evaluation, Accountability, and Learning (MEAL) systems across health, nutrition, resilience, and multi-sectoral development and humanitarian programs. Extensive track record managing donor-funded initiatives, particularly USAID, with a focus on generating high-quality data and actionable insights to drive program performance and impact.

Expert in developing Results Frameworks (RF), Theories of Change (ToC), and Performance Monitoring Plans (PMP) across MNCH, nutrition, agriculture, WASH, DRR, gender equity, and youth empowerment. Proven track record in adaptive management through CLA integration, knowledge management, and learning across consortium partners. Skilled in advanced data visualization (Power BI, GIS) and conducting over 30 evaluations, including RCTs and longitudinal studies.

Technically proficient in DHIS2, KoboToolbox, SQL, Excel, STATA, SPSS, R, Python, and SmartPLS, and skilled in remote support, capacity building, and promoting ethical, gender-responsive MEAL practices across Asia and Africa.

EXPERIENCE

Senior Team Leader, M&E | CARE Bangladesh | SHOUHARDO III Plus, USAID (May 2022 – Jan 2025)

- Led overall MEAL strategy for \$130M USAID-funded SHOUHARDO III Plus, ensuring high-quality monitoring, evaluation, reporting, and knowledge management across multiple partners.
- Supervised a 37-member MEAL team and provided technical guidance to 6 implementing partner NGOs, including consortium-wide reporting and aggregation of quantitative and qualitative results.
- Designed and operationalized monitoring frameworks, Theories of Change, and logical frameworks aligned with donor standards (USAID, DCED, OECD DAC).
- Developed knowledge management processes, capturing best practices and lessons learned, and facilitated cross-learning workshops and exposure visits for partners.
- Integrated gender, governance, Disaster Risk Reduction (DRR), and conflict-sensitive programming across all interventions.
- Applied GIS, dashboards, and digital tools to enhance data compilation, visualization, and evidence-based adaptive management.
- Conducted large-scale evaluations, including Baseline, Endline, longitudinal, and RCT studies, applying robust statistical methods (SPSS, STATA, R, Python).

M&E Coordinator | CARE Bangladesh | SHOUHARDO III, USAID RFSA (April 2021 – April 2022)

- Coordinated MEAL for a \$110M USAID RFSA project reaching 57,000 pregnant and lactating women and 144,000 children under five.
- Developed and implemented a comprehensive MEAL plan, including indicator tracking tables, PIRS, and TOC matrices, aligned with donor compliance standards.
- Managed 37 MEAL staff and 6 implementing partner NGOs, ensuring timely and accurate data aggregation and reporting.
- Strengthened knowledge management and learning processes through documentation of lessons learned, periodic reviews, and adaptive management.
- Mainstreamed gender, DRR, governance, and conflict sensitivity into monitoring tools and reporting systems.
- Conducted rigorous multi-sectoral studies on agriculture, nutrition, resilience, gender, and youth engagement.

M&E Manager – Program Quality | CARE Bangladesh | SHOUHARDO III (April 2017 – March 2021)

- Provided technical leadership to M&E teams, ensuring high-quality data collection, reporting, and utilization to drive programmatic decision-making.
- Led the integration of GIS in M&E tools to enhance data visualization and adaptive management strategies.
- Integrated gender, DRR, governance, and conflict sensitivity into programmatic monitoring.
- Provided **remote MEL technical support** to CARE Mali and Niger's RFSA projects, enhancing data system.
- Provided expertise in qualitative and quantitative data collection, analysis, and reporting for program improvement and accountability.

MIS Manager | CARE Bangladesh | SHOUHARDO II Program (January 2014 – March 2017)

- Managed and oversaw a **\$130 million** USAID-funded multi-sectoral program (SHOUHARDO II) targeting 370,000 poor and extremely poor households in remote areas of Bangladesh.
- Developed robust systems for tracking progress against results frameworks, MEL plans, and beneficiary tracking systems for large-scale, multi-sectoral projects.
- Enhanced capacity to capture location-specific early warning systems to improve community preparedness data.
- Strengthened regional team capacities in M&E, MIS, GIS and ICT applications and prepared detailed quarterly reports to track progress and outcomes effectively.
- Tracked and reported performance indicators across agriculture, resilience, women's empowerment, education, and health and nutrition, including child malnutrition rates, ANC/PNC coverage, and immunization uptake.

MIS Officer | CARE Bangladesh | SHOUHARDO II Program (December 2010 – December 2013)

- Led the development and management of a comprehensive MIS for program monitoring, including the Beneficiary Master List (BML) and Commodity Tracking (COG) system.
- Designed user-friendly data entry templates, automated validation rules, dashboards, and reports to ensure high-quality data and support decision-making.
- Conducted data cleaning, validation, and analysis, providing technical support to regional offices and program teams.
- Collaborated with partners to adopt best practices, streamline reporting, and enhance operational efficiency.

Project Officer M&E | Handicap International Humanity & Inclusion (August 2010 – December 2010)

- Skillfully facilitated Humanitarian Assistance Program staff in implementing M&E activities during emergency situations.
- Designed and implemented MEL systems during emergency situations, ensuring effective tracking of project progress.
- Developed a computerized database management system to ensure accurate record-keeping and reporting.
- Conduct regular field visits to monitor project activities, provide support to field teams, and share findings to inform management decision-making.
- Established a feedback mechanism system and ensured the visibility of the project-related activities.

Hub M&E Officer | CARE Bangladesh | SHOUHARDO, USAID activity (December 2009 – May 2010)

- Developed and implemented effective M&E systems, assigning PNGO M&E personnel for execution within partners and CARE Direct Delivery teams.
- Strengthened the capacity of M&E personnel through training in data entry, analysis, and reporting, promoting the use of participatory M&E methods.
- Created a learning environment to capture key successes, challenges, and lessons for adaptive management.
- Maintained and updated the M&E database at the hub office to ensure smooth data entry and accurate results.

Technical Officer M&E | SOLIDARITY and PRODIPAN (November 2007 – July 2009)

- Ensured data accuracy and monitored program activities, providing regular feedback.
- Developed Participatory Monitoring and Evaluation (PME) tools for stakeholders.
- Assisted with data collection, crosschecks, and SPSS analysis.
- Prepared monthly, quarterly, semi-annual, and annual reports.
- Provided technical support to the PRODIPAN to rollout the M&E activities (June 2009-July2009)

Monitoring Officer | RDRS Bangladesh (February 2006 – November 2007)

- Led annual impact survey from methodology to survey design, including sample selection, data collection, and analysis.
- Provided professional support to project staff for timely data collection and reporting.
- Participated in all M&E events to capture learning and developed customized data entry software for efficient and accurate data processing.

EDUCATION

- Master of Governance and Development Studies
Jahangirnagar University; Bangladesh, (2018)
- Post Graduate Diploma in Information and Communication Technology
Govt. Azizul Haque College; Bangladesh (2006)
- Master of Science in Chemistry
National University; Bangladesh (2002)
- Bachelor of Science in Chemistry
National University; Bangladesh (1998-2001)

FELLOWSHIP

Cultivating Inclusion for Food Security Fellowship, The Gender and Youth Activity (GAYA)

- The fellowship focused on enhancing inclusive resilience in food security programs integrating gender and youth.
- Gained skills in qualitative inquiry to design and adapt programs for increased inclusion.
- Explored dynamics of inclusive resilience and applied findings to ensure programs build resilience inclusively.

TRAINING

Management and Leadership: Management Matters (CARE, 2016); Gender Equity and Diversity (CARE, 2018); Effective communication, Conflict Mediation and Negotiation skills (SC, 2009); Problem Solving (RDRS, 2008); Management Information System (RDRS, 2007)

Data Analysis and Statistics: Applied Statistics Using STATA (ISRT DU, 2021); R for Data Analytics (ISRT DU, 2019, SPSS (TOPS, 2014); **ArcGIS (DU, 2018)**

Monitoring and Evaluation: Participatory Monitoring and Evaluation (CARE, 2008); M&E Requirement for Development Food Assistance Project (USAID, 2016); Qualitative Monitoring Inquiry Initiatives (CARE, 2022)

Safety and Security: Strategic Communication and Safety & Security (CARE, 2023); Fraud Awareness, Prevention and Detection (CARE, 2023); Safeguarding-PSHEA (CARE, 2022); Crisis Management and Response (CARE, 2020); Risk Assessment and Management (CARE, 2022); Conflict Management and Resolution (CARE-2018), Travel Risk Management for Staff (CARE, 2024)

LANGUAGES

English and Bangla (bilingual proficiency)
